Climbing 14
Silent Walk (Burrowing Hide) 14

Zerglings stand over a yard high and are about the size of a large dog, with a sturdy brown carapace. They have lots of teethm webbed feet, and two extra arms which fold under there forearms when running and are tipped with large scythelike claws with which they attack.

Zerglings though among the smallest zerg are still strong as trolls, fast as horses, and armored like plate, with their claws able to cut through such armor easily. They frequently serve as scouts or attack in waves, for while one zergling is dangerous a group are scary.

It is thought that zerglings and other zerg were created by a dragon long ago, playing with nature and magic to create animal warriors.
