Background on BloodRayne

In 1932 an American teenage girl was apprehended in Europe after carving a path of destruction trying to track down and kill her biological father. The girl's name was Rayne and she claimed the people she killed, and her father who was still at large, were vampires. Before more information was attained, the girl disappeared.

That girl is a Dhampir; a product of her human mother's rape by her vampire father. Born with the powers of a vampire without all the weaknesses. She was taken in by an underground organization calling themselves the Brimstone Society, a top secret fraternity that hunts down and destroys supernatural threats. Agent BloodRayne, as she is now know, protects humanity from things that ordinary people shouldn't have to deal with.

In the years between the World Wars, Agent BloodRayne works as a killing machine for The Brimstone Society. Two missions, five years apart, turn out to be connected by one man. For years, this man has been searching the world for powerful occult artifacts to bring to the Germany into a new age of domination. Agent BloodRayne must face this man's elite Nazi army to prevent them from releasing creatures of unfathomable terror onto the world in their unwavering quest for the artifacts.

Quote: “You dropped something.” **Roleplaying BloodRayne**

She is a super-sexy, super-lethal heroine. Agent Bloodrayne may be half-human and half vampire but she's certainly all woman. In the game, BloodRayne has a lust for action and is more than happy to fight for her frights. She works as a killing machine for a top-secret fraternity that hunts down and destroys supernatural threats.
