Droids D6 / C1-series astromech droid

Name: C1-series astromech droid
DEXTERITY 1D
KNOWLEDGE 1D
MECHANICAL 2D
Astrogation 4D, Space Transports 4D, Starfighter Piloting 3D
PERCEPTION 1D
STRENGTH 1D
TECHNICAL 2D
Computer Programming/Repair4D, Starfighter Repair 5D*, Space Transport Repair 4D
* Astromech droids, if acting in co-pilot capacity, may attempt starship repairs while in flight.
Equipped With:
Two Walking Legs
One gyroscopically stabilised central wheel
Jet Thrusters
Retractable heavy grasper arm (lifting skill at 2D)
2 x Retractable fine work grasper arm
Extendable 0.3 metre long video sensor (360o rotation)
Small electric arc welder (1D to 5D damage, 0.3 metre range)
Small circular saw (4D damage, 0.3 metre range)
Video display screen
Holographic projector/recorder
Fire extinguisher
Acoustic signaller
Sensor System
Commlink
Small (20cm. by 8 cm.) internal "cargo" area
Some additional tools and equipment
Move: 5 walking, 12 on central wheel, 25 on jet thrusters
Size: 1 metre
Cost: 4,525

Description: The C1-series astromech droid, also known as the C1 model, was a type of astromech droid used during the Clone Wars and the reign of the Galactic Empire, though by then they were considered antiques and had passed their manufacturer's expiry date a few decades prior. They had three mechanical arms to manipulate objects with, and featured an electrical arc welder. C1-10P, a droid nicknamed "Chopper" who served on the Ghost, was a C1 model, although he was mismatched after years of repairs and patch jobs.
