Description: Gar Saxon was a Mandalorian human male who served as a commander of the Mandalorian super commandos in Darth Maul's Shadow Collective during the Clone Wars and later as Imperial Viceroy and Governor of his homeworld of Mandalore during the reign of the Galactic Empire.

During the Clone Wars Saxon was one of the two-man extraction team that rescued Maul from the Spire on Stygeon Prime and later commanded Maul's ground forces during General Grievous' invasion of the Collective base on Ord Mantell. After the rise of the Empire, Saxon served as Hand to Galactic Emperor Sheev Palpatine and was the leader of the Imperial Super Commandos until his death on Krownest in 2 BBY.

Personality and traits

Gar Saxon was a brutal, ruthless, and aggressive Mandalorian. Under Maul he was shown to be very dedicated to the cause despite Maul being an outsider and a Force-user. After Maul's defeat, Saxon again swore loyalty to an outsider, this time the Empire. This led some, such as Sabine Wren, to question whether his true loyalty belonged to Mandalore or himself. This also meant his honor was called into question, preventing him from claiming the title of Mand'alor. Saxon was a fierce and brutal warrior and commander. He took pride in killing the Protectors for colluding with the rebellion and was determined to kill their leader Fenn Rau. Saxon was a ruthless and impatient interrogator who was not above using violence to extract results.

As the Empire's puppet ruler on Mandalore, Saxon sought to root out and punish traitors who defied the Empire. Saxon used Sabine's abandonment of the Empire to apply pressure on Clan Wren. Saxon imprisoned Sabine's father as a hostage and forced Countess Ursa Wren to submit her son Tristan Wren as a member of the Imperial Super Commandos. Saxon had an antipathy with Clan Wren and sought to use every opportunity to destroy the rival clan. In order to support his claim to rule Mandalore, Saxon sought to obtain the Darksaber from Sabine, though he had no right to the ancient weapon.

Due to his desire for power and dominance, Saxon was not gracious in conceding defeat. When he was beaten by Sabine in single combat, Saxon demanded that she execute him in order to save him the ignominy of bowing to her. When Sabine defied Mandalorian tradition by sparing his life, Saxon tried to kill her with his blaster but was shot dead by Ursa. Saxon was also extremely dishonorable and self-serving, reneging on a bargain with Clan Wren to protect them and twice

attempting to kill his opponents from behind when they were distracted, the latter of which cost him his life.

Saxon was a human male who had fair skin and gray eyes. By his governorship, his hair color had changed from blond to gray.

Skills and abilities

Saxon was a ferocious and merciless warrior on the battlefield. He knew how to operate blasters and a jetpack. Saxon was able to take on Sabine Wren in a lightsaber duel but was outwitted by the younger warrior, who had learned lightsaber techniques from Kanan and Ezra.

Equipment

During his service with the Shadow Collective's Mandalorian super commandos, Saxon wore his armor with horns on his helmet and his armor was painted with black and red to signify his allegiance to Maul.

As leader of the Empire's Super Commandos, Saxon wore thier Super Commando armor with the color red.
