Equipment D6 / Sinrich Optical Dephaser

Name: Sinrich Optical Dephaser
Type: Cloaking device
Game effects:

+3D to Sneak and Hide skills when Cloaking Field is active, the cloaking field uses extremely large amounts of energy and therefore can only operate for 30 Minutes before it requires recharging and also registers of some short range energy scanners. The stealth effect can be countered by paint and the like adhering to the outside of the effect.

Description: The Sinrich optical dephaser was a small-scale cloaking device that could be used for an array of purposes, such as vehicular cloaking or invisible camouflage for hunting and hand-to-hand combat. Shortly after the rescue of Hera Syndulla by the Spectres on Lothal in 1 BBY, the Imperial Noghri assassin, Rukh, used the Sinrich optical dephaser to fight against Sabine Wren and Garazeb Orrelios.
