Computer Repair/Operation: 4D

Equipped with:
Humanoid Body (two arms, two legs, head)
one visual and one auditory sensor - human range
Vocabulator speech/ sound system
Translate Communications module with over 2.5 million languages

Move: 9
Size: 1.8 meters tall
Cost: 1,900 (used)

Description: 68-RKO was a droid in the service of Bail Organa during the Clone Wars. He happened to be traveling on the same pleasure cruiser as Obi-Wan Kenobi and followed him in order not to be considered luggage. While accompanying Kenobi he witnessed the Jedi save the ship from Merson pirates, and defuse a hostile mob of passengers. He later told the story to Bail Organa, who in turn told the story to Leia Organa.
