Description: Xi'an was a Twi'lek female mercenary. At some point, she worked with the bounty hunter known as the Mandalorian. Xi'an later encountered the Mandalorian once more when the two of them were hired by Ranzar Malk to rescue Qin, Xi'an's brother, who was imprisoned aboard a New Republic prison ship. The team intended to betray the Mandalorian and leave him for dead, but the Mandalorian managed to escape, and trapped the members of the team inside one of the transport's cells.

Xi'an became a mercenary, and at some point, worked with her brother Qin, the mercenary Ranzar Malk and the bounty hunter known as "The Mandalorian". One of her jobs, alongside the Mandalorian, was on Alzoc III. She also had a relationship with the bounty hunter. However, actions by the Mandalorian led to the fallout of the group and the capture of Qin.

In 9 ABY, Malk formed a team of mercenaries including Xi'an, the Human Mayfeld, the Devaronian Burg, and the droid Q9-0 (Zero). Malk also called in the Mandalorian in order to use his ship, the Razor Crest, which was pre-Imperial Era and was off the Galactic Empire and New Republic grids. Xi'an went to greet the Mandalorian while he met the rest of the team and waved a dagger at him. The team began planning their infiltration of the New Republic prison ship holding Qin. The Mandalorian was skeptical about getting in trouble with the New Republic but Xi'an told him that the prison ship was crewed by droids, knowing that the bounty hunter hated droids.

After determining their plan, the mercenaries began traveling for the prison ship on the Razor Crest, which Zero piloted. The rest of the team sat in the cargo hold, where the Mandalorian quarreled with Burg. Burg and Mayfeld also talked about Mandalorians and when Mayfeld mentioned Xi'an's experience with them, she asked the Mandalorian to tell the pair about Alzoc III. When Burg tried to remove the Mandalorian's helmet, the bounty hunter fought back and the Devaronian accidentally opened a door, revealing an infant alien. Mayfeld asked if Xi'an and the Mandalorian made it and Xi'an asked if the Bounty Hunter Code made the bounty hunter soft when he said it was a pet.

Zero announced to the rest of the team that the Razor Crest was approaching the prison ship and began maneuvering it to land on the transport unnoticed. Xi'an was frustrated that the droid did not give them a countdown.
