

Weapons D6 / Gungan Energy Shield

Gungan Energy Shield

Model: Gungan Liquid Energy Shield System

Type: Ray-shield generator system

Scale: Speeder

Skill: Vehicle shields

Cost: NAFS (equivalent Invisible market value: 35,000 credits)

Availability: 4

Game Notes: This shield system (energy transmitter and shield projector) provides 6D speeder scale protection against energy weapons. It also interferes with shields other than those used by Gungans. Shields are usually carried on vehicles or animals, such as faamba. It can be combined with other shields for a +2D bonus per generator added to the whole. The number of connected generators cannot exceed ten - if it does, an overload occurs, releasing 6D/5D/4D speeder scale damage in 1-5/10/25 meter radii.
