Cost: 3,900 (used)
Maneuverability: 1D
Move: 120; 360kmh
Body Strength: 2D+2
Weapons:

Description: A taxi speeder, also known as a hovertaxi, hover cab, grav-cab, or repulsorcab was the name applied to landspeeders that functioned as taxis. Unlike their airspeeder counterparts, air taxis, taxi speeders operated close to the ground. Some versions, like this one seen on Maldo Kreis, were droid-piloted.
