Vehicles D6 / Land Crawler

Name: Land Crawler
Type: Cargo platform
Scale: Speeder
Length: 6 meters
Skill: Ground Vehicle operation: Land Crawler
Crew: 1;
Crew Skill: Varies widely
Passengers: 2 (or 12 without cargo)
Cargo Capacity: 15 metric tons
Cover: Full
Altitude Range: Ground
Maneuverability: 0D+1
Move: 20; 66 kmh
Body Strength: 4D

Description: Land crawlers were vehicles well-equipped to handle the harsh terrain of Ambria. They had two front wheels and four rear wheels, the latter forming two caterpillar tracks. They had large cargo holds, often used by salvagers to carry discovered "treasures." The Sith Lord Darth Bane drove one such vehicle when he found Mikki's family, who were using a land crawler too, for salvaging. Bane murdered the family before driving his crawler to the home of the healer Caleb.
