Special Skills

Dexterity Skills:

Blind Fighting: Time to use: one round. Defel can use this skill instead of their brawling or melee combat skills when deprived of their sight visors or otherwise rendered blind. Blind fighting teaches the Defel to use its senses of smell and hearing to overcome any blindness penalties.

Special Abilities

Invisibility: Defel receive a +3D bonus when using the sneak skill.

Claws: The claws of the Defel can inflict STR+2D damage.

Light Blind: Defels eyes can only detect ultraviolet light, and the presence of any other light effectively blinds the Defel. Defel can wear special sight visors which block out all other light waves, allowing them to see, but if a Defel loses its visor, the difficulty of any task involving sight is increased by one level.

Description: One of the nonhumans on the Interim Ruling Council, Za was a Defel Prince. Za's family controlled several key hyperspace routes. He used his family's wealth to fund Carnor Jax's plan to sabotage Palpatine's Clones. After the Emperor's death, Za was offered a seat on Jax's Interim Ruling Council. The other councilors, unnerved by his appearance (or lack thereof), set up ultraviolet lamps around De-Purteen to lessen his frightening visage.

Despite his presence on the Council, Defels remained oppressed throughout the Imperial Remnant. Za was also a puppet of Norym Kim and was paid by Kim to nominate Xandel Carivus to become the Council's new leader. This plan had negative effects when Carivus expelled and imprisoned the nonhuman members of the council after becoming the head of the council.

Following Carivus' death, he was taken into New Republic custody.
