Description: The DLT-19x targeting blaster was a blaster rifle, and a variation of the DLT-19 heavy blaster rifle. Unlike the DLT-19, the DLT-19x released all of its power in one shot before it would need to cool down. The DLT-19x was a very powerful weapon, and could take down most enemies in one shot. The weapon had a scope which could be zoomed in farther than most scopes. This targeting blaster was a weapon of choice for many snipers, and was very effective and silent.
