Description: K-344, nicknamed Kurti, was a droid who was the guitarist of the band Star Waver. Formerly abandoned, K-344 found her purpose in music. She had a calm demeanour and an authoritative tone, but let her playing do most of the talking.

Personality and traits
Although she did not speak often, Kurti was assertive and authoritative when the situation called for it. She would not allow Jay to sulk idly when Geezer was captured by Boba Fett, but insisted the former Padawan help with their ship's repairs.
