Description: Keelia was a terrestrial planet in the Outer Rim Territories. It had lush forests, rivers, and large rock formations.

The Force, known locally as "Magina," was an important concept among its inhabitants.

History
During the Clone Wars, the Confederacy of Independent Systems stripped the planet of its natural resources, using them in the war effort. Sometime after Order 66, the Galactic Empire's domination had still not reached Keelia.

Places of Interest
Meevai Village
Meevai Village was a small settlement on the planet Keelia.
