Vehicles D6 / Scoop skimmer

Name: Scoop skimmer
Type: Air Speeder
Scale: Speeder
Length: 5.2m
Skill: Repulsorlift operation: Air Speeder
Crew: 1
Passengers: 4
Cargo Capacity: 250kg
Cover: Full
Altitude Range: Ground level-1km
Maneuverability: 1D+2
Move: 120; 1000kmh
Body Strength: 4D
Weapons:
- Twin Light Blasters
  - Fire Arc: Front
  - Scale: Speeder
  - Skill: Vehicle Blasters
  - Fire Control: 2D
  - Range: 20-200/500/1km
  - Damage: 4D

Description: The scoop skimmer, also known as a scoop speeder was an airspeeder used on Utapau as a transport and law enforcement vessel.

Characteristics
Green-hulled scoop skimmers were designed for use by Pau'ans, and the passenger compartment could seat four. Although chiefly used as transports, some were equipped with light blaster cannons for law enforcement duties. They appeared somewhat similar in design to the Techno Union Mankvim-814 light interceptor.

History
Besides Utapau, Scoop skimmers could also be found in the skies of Galactic City on Coruscant.
