Description: Drash was a human female member of a street gang within the Worker's District of the city Mos Espa on Tatooine.

Biography

Early life

Drash grew up in a neighborhood of Mos Espa a "womp hop" away from an alley where she would later clash with Pyke Syndicate forces. At some point she joined the Mods street gang.

Working for Boba Fett

After the street gang's thefts were reported to the new Daimyo, Boba Fett, by the water-monger Lortha Peel, Fett confronted the criminals. Drash informed him that the gang was stealing because there was no work for them to earn money from, and Fett subsequently recruited them to work for him.

The street gang later assisted Fett in fending off the Wookiee gladiator Krrsantan, who was sent to kill him by the Hutts known as the Twins, and later pursued the majordomo of Mayor Mok Shaiz in a chase through the streets of Mos Espa.

During an ambush in the Workers' District of Mos Espa, Drash, and other Mods, were rescued by Fennec Shand. She was the only one to say "thank you," a gesture that impressed Shand.

Equipment

Her body modifications appeared to be limited to a cybernetic replacement of her left arm. It had a distinctive red color that matched other pieces of her attire.

She rode a blue speeder bike with two sets of shiny mirrors flaring from the sides.

Drash carried a vibro-stiletto, and a small blaster pistol, which she once exchanged for a Cycler rifle.
