Starships D6 / Gates Battle Cruiser

Gates Battle Cruiser

The Gates Battle Cruiser is a sleek, flat, and rounded ship with a launch hanger on the ventral side opening forward, and ten front firing concussion missile launchers. Viewed from both above or below the Gates resembles the letter 'C' with turbolaser and ion cannon emplacements lining the edges of it. It is propelled by ten massive H-K Ion Induced Super-Charged Engines which can effectively propel the ship faster than an Imperial Star Destroyer. The Gates is run largely on computer and droid automation and many of its systems can go for days without crew intervention.
