Biography
He was a former scout and freelance instructor, teaching whoever would pay him how to fly starships. He made several runs to important trade worlds such as Celanon, Byblos, and Yaga Minor. Along with his wife, Chachi De Maal, the pair owned several docking bays in Mos Eisley including Docking Bays 27, 43, 67, 71, 86, and 94. They also owned the droid WED-9-M1. Owhun and his wife were both in Chalmun's Spaceport Cantina during Luke Skywalker's fateful encounter with Han Solo. During Solo's stay on Tatooine, he happened to be using Docking Bay 94, owned by the pair. When Solo and his group blasted out of the docking bay past the Galactic Empire, the previous amicable friendship between the Duros and Jabba Desilijic Tiure turned sour.

Ohwun and his wife sometimes worked for the Galactic Empire, and in their line of work, dealing with shady characters on a frequent basis, they used several aliases. Among the ones Ohwun used were Ellorrs Madak and Bringe, who were never seen without their respective partners, Baniss Keeg and Probos, the aliases Chachi used.

The couple once discovered a star with three dead planets, all of which were rich in Helixell, a key mineral in hyperdrive fuel. As of 0 BBY, they were deciding on whether to report their findings to the Empire or secretly claim the Helixell for themselves.

They were also known to have smuggled bacta to the Rebel Alliance in their freighter, Millanti.
