Special Abilities:

Mathematical Aptitude: Givin receive a bonus of +2D when using skills involving mathematics, including astrogation. They can automatically solve most “simple” equations (gamemasters option.)

Vacuum Protection: Every Givin has built-in vacuum suit which will protect it from a vacuum or harsh elements. Add +2D to a Givin’s Strength or Stamina rolls when resisting such extremes. For a Givin to survive for 24 standard hours in a complete vacuum, it must make an Easy roll, with the difficulty level increasing by one every hour thereafter.

Increased Consumption: Givin must eat at least three times the food a normal Human would consume or they lose the above protection. Roughly, a Givin must consume about nine kilograms of food over a 24 hour period to remain healthy.

Biography

Rogue droid witness

Elis Helrot was a Givin male who worked as a pilot and a smuggler of spice during the reign of the Galactic Empire. In the year 0 BBY, Helrot was in the spaceport of Mos Eisley on the planet Tatooine when the rogue Imperial astromech droid 261 crashed its stolen Lambda-class T-4a shuttle in one of the port's hangar bays after escaping from the Death Star battle station with sensitive Imperial files.

Imperial stormtroopers then engaged the droid in a firefight and managed to damage it, but 261 escaped while leaking oil. When the Trandoshan bounty hunter Bossk arrived in Mos Eisley in search of 261 a short while later, he spoke with Helrot in one of the spaceport's buildings about the events of the crash.

Cantina customer

Later that year, Helrot sat at a booth table with the Gotal Feltpern Trevagg and the H'nemthe M'iiyoom Onith in Chalmun's Spaceport Cantina in Mos Eisley when the Jedi Master Obi-Wan Kenobi used his lightsaber to fend off the thugs Doctor Cornelius Evazan and Ponda Baba at the cantina's bar.

Helrot was then joined at the table by the Duros Ohwun De Maal, and the pair were speaking when the Rodian bounty hunter Greedo cornered the smuggler Han Solo in one of the cantina's booths behind Helrot's back. Solo then shot and killed Greedo and left the cantina, briefly drawing the attention of the

other customers.

Personality and traits

Elis Helrot had white skin and black eyes. The Givin spoke disparagingly of Imperial stormtroopers to the bounty hunter Bossk and had little use for them, but respected their raw power and did his best to avoid entanglements with them.

Skills and abilities

Helrot had average intelligence and speed, with just below average fighting ability and strength. He had poor diplomatic skills and was not Force-sensitive.

Equipment

Elis Helrot wore a black shirt with a white shawl while in Mos Eisley.
