Special Abilities:

Energy Sensitivity: Because Gotals are unusually sensitive to radiation emissions, they receive a +3D to their Search skill when hunting such targets that are within 10 kilometers in open areas (such as deserts and open plains). When in crowded areas (such as cities and dense jungles) the bonus drops to +1D and the range drops to less than one kilometer. However, in areas with intense radiation, Gotals suffer a -1D penalty to Search because their senses are overwhelmed by radiation static.

Mood Detection: Because of their skills at reading the electromagnetic auras of other, Gotals receive bonuses (or penalties) when engaging in interactive skills with other characters. The Gotal makes a Moderate Perception roll and adds the following bonus to all Perception skills when making opposed rolls for the rest of that encounter.

Roll Misses Difficulty By: ----- Penalty:

6 or more ----- -3D

2-5 ----- -2D

1 ----- -1D

Roll Beats Difficulty By: ----- Bonus:

0-7 ----- +1D

8-14 ----- +2D

15 or more ----- +3D

Fast Initiative: Gotal's who are not suffering from radiation static receive a +1D when rolling initiative against non-Gotal opponents. This is due to their ability to read the emotions and intentions of others.

Story Factors:

Droid Hate: Gotal's dislike droids because the emissions produced by droids overwhelm their special senses. They receive a -1 D to all

Perception-based skill rolls when within three meters of a droid.

Reputation: Because of the Gotal's reputation as being overly sensitive to moods and feelings, other species are uncomfortable dealing with them.. Assign modifiers as appropriate.
