Description: TK-710 was the designation of a human male stormtrooper who served the Galactic Empire during the Galactic Civil War. In the year 0 BBY, he was stationed aboard the first Death Star battle station when the YT-1300 light freighter Millennium Falcon was pulled in by the station's tractor beams. TK-710 and fellow stormtrooper TK-421 were posted to guard the ship's entrance in Docking Bay 327 while a scanning crew checked the interior of the vessel. The Falcon's crew ambushed the scanning crew and then impersonated them in order to lure TK-710 and TK-421 inside, incapacitating the stormtroopers and taking their armor.
