VerboBrain
TranLang Communications module with over half a million languages.

Move: 7

Description: Y-O was a protocol droid used by the Alderaanian House of Organa. In 9 BBY, the droid attended an event on the planet Alderaan, and gave Princess Leia Organa some food, receiving a thanks from Organa. This was met with bemusement by Organa's cousin Niano Organa, who regarded the droid as a lower life form. Y-O had blue sensors and silver plating.
