Description: Kensaric was a human male who served as a corporal in the Alliance to Restore the Republic during the Galactic Civil War against the Galactic Empire. In 4 ABY, Major Bren Derlin selected Kensaric to be a member of a strike team of volunteer commandos that the Alliance was sending to the moon of Endor to disable a shield generator there that protected the Imperial Death Star II superweapon. The corporal's role would be to cover the team's tracks on the forest moon.

Deploying to the moon in the stolen Imperial shuttle Tydirium, the team made its way to a security bunker at the rear of the generator and, with the aid of the local Ewok population, defeated an Imperial trap waiting for them there before destroying the generator. This then allowed the Alliance Fleet to destroy the Death Star. Kensaric had light skin, brown eyes, and brown hair. He wore a brown jerkin over a white shirt with a green helmet.
