

Starships D6 / Yusku Frigate

Yusku Frigate

The Yusku frigate has an arrow head shape like that of an Imperial Star Destroyer, but smaller, much smaller. The Yusku is much more maneuverable than today's standard KDY Nebulon B attack frigate, and is sometimes even used to give chase to fleeing enemy transports. The Yusku also has a standard boarding crew to inspect, or capture enemy cargo haulers. It's a good ship, a run for it's money. Kevlar sells these ships at a premium deal, attracting a multitude of organizations.
