Manoeuvrability: 3D+1
Move: 262; 785 km/h
Body: 3D

Description: Using skills learned with his friend Anakin Skywalker when he was a child, Kitster Banai built a custom pod racer when he was on exile on the world of Gabredor III. Needing a vehicle to rescue Sabe from a Sandstorm, Darth Vader borrowed this podracer although his other childhood friend, Wald, unaware that Vader was Anakin, expressed that only an expert Pod Racing Pilot could handle the vehicle.
