Description: A shuttle ferry was a red and yellow two-engine, single pilot repulsorcraft shuttle model that operated on the planet Ferrix by 5 BBY. It was used by the Ferrix Entry Ferry Service for transporting passengers to and from the town center. Rebel network coordinator Luthen Rael used a shuttle ferry in 5 BBY, as did one of his network's spies Vel Sartha and ex-Pre-Mor Enforcement officers Syril Karn and Linus Mosk several weeks later.
