Biography

In 5 BBY Petigar was working as an Imperial engineer on Coruscant. He was dispatched to Aldhani where he was to oversee preparations for the construction of a new airbase next to the Nasma Klain dam to replace the Alkenzi installation. He arrived at the planet in a Lamdba-class shuttle a day before the Eye of Aldhani, a major celestial phenomenon, was due to take place and after being greeted by Commandant Jayhold Beehaz he immediately got to work on the dam.

In the morning of the Eye Petigar enjoyed his breakfast with Commandant Beehaz, who tried to charm him by describing how the garrison had managed to significantly limit the number of Dhani pilgrims congregating in the valley temple. After getting dressed, he accompanied Beehaz and his family to the greeting ceremony where they, along with Lieutenant Gorn, welcomed the pilgrims and exchanged furs with them. The welcoming party then headed back to the dam escorted by a unit of men from Alkenzi, in reality a rebel infiltrator party under former stormtrooper Taramyn Barcona. Once inside the base, the rebels pointed their weapons at the officers and the Commandant's family, ordering them not to move and to drop their weapons. Petigar, enraged by this, drew his sidearm and pointed it at Barcona instead, asking the rebels to let the younger Beehaz go. Amid the chaos, fellow rebels Cinta Kaz and Vel Sartha descended from a nearby service ladder, having infiltrated the dam themselves, and Kaz immediately shot and killed Petigar.
