Special Abilities:

Musical: Zenezian culture is based around music, stories are sung and performed rather than told, with Zenezians all having perfect pitch and being able to remember a tune or song perfectly. This gives them a +2D to all tasks involving music such as performing. However if a Zenezian offers a musical instrument to someone and it is refused, all social rolls are two levels higher with that individual.

Move: 10/11

Description: Zenezians were a sentient species. The musician Infrablue Zedbeddy Coggins was a Zenezian, as was Sudswater Dillifay Glon. It was considered a major insult to refuse a musical instrument from a Zenezian.
