Description: Cassian Jeron Andor was a human male operative of the Alliance to Restore the Republic who was remembered as a hero after his sacrifice to secure the Galactic Empire's Death Star plans at the Battle of Scarif. An accomplished spy and assassin, Andor was well-respected within the Rebellion and was trusted with leading Alliance Intelligence missions by Alliance High Command.

Originally a Kenari boy named Kassa, the human was rescued from a Republic vessel that had crashed on his Mid Rim homeworld of Kenari by smugglers Clem and Maarva Andor prior to the Clone Wars. Thereafter, the boy was named Cassian Andor, given a forged identity as an individual born on the planet Fest, and settled with his adopted family, including the droid B2EMO, on the Free Trade sector world Ferrix. Andor eventually made his way into the war against the Empire, working as a skilled spy, assassin, soldier, and pilot, operating many rebel missions with aliases such as Willix, Aach, Joreth Sward, Clem, and the codename Fulcrum. Before officially joining the Rebellion, for a period of time he was a tourist on the planet Niamos using the alias Keef Girgo.

Personality and traits
As a young man, Andor kept his origins close to his chest, officially denoting that he hailed from the planet Fest instead of revealing the true nature of his childhood on Kenari. However, he did trust some close friends and romantic partners with the truth, including Bix Caleen. He did not tell many, but he also did not keep track of everyone that he told. He was prone to owing various individuals money, at one point being in debt to Nurchi and Brasso, the latter of whom he was more keen to pay back due to being good friends with the man. He also had a reputation of being something of a womanizer: When trying to explain away a mysterious injury to Caleen, the latter wondered if it may have been caused by a jealous husband. When Andor's mother Maarva was trying to figure out who knew that Andor was born on Kenari, she stated that she was worried about "all his women", naming some of them before admitting that there were some names that even she didn't know. Arvel Skeen was quick to inform Andor that their fellow Aldhani rebel infiltration team member Cinta Kaz was already "sharing a blanket". Andor eventually developed into a selfless man, which set him apart from other, more extreme rebels who blurred the same lines as him.

Skills and abilities
Andor was often an unassuming man that his opponents would underestimate. After killing two Corpos on Morlana One, the Preox-Morlana sent a squad after him, with Linus Mosk warning the group not to underestimate Andor.
