

Tyrion Nightstorm

Tyrion Nightstorm is an ancient pirate from the days of the Old Republic. He and his sister Tyroshi worked together for the first 100-200 years of their lives. They terrorised the space ways and brought down the official wrath of the Old Republic on them. Being pursued by Republic Naval forces, they ran deep into the unknown regions and came upon an ancient and proud race known as the Aisharia. The Aisharia were at war with another advanced race in the unknown regions and needed help. The Aisharia were master ship builders, but they were getting to a point at which the crew was harder to get than the ship. The Aisharia built Tyroshi and Tyrion each a ship in return for their promise to help them fight their enemy. Once the ships were finished though, Tyrion used it to raze one of the Aisharia cities to the ground. Tyrion and Tyroshi fled back to Old Republic space. Tyroshi was mad at her brother's behavior and they had a fallout in which they went their separate ways.

Tyrion went on pillaging the galaxy in his new ship. He was of an unknown race that had great powers. He could manipulate certain fields of energy so he could fly, hurl blasts of energy at people and so forth. Using his powers, combat skill, and intelligence he made a big name for himself once more in the Old Republic. The Old Republic sent forces after him again and again but the few times he was found, no one survived to tell the tale. Eventually he became so famed that people stopped believing in him, especially since the time of his fame spanned more than 400 years. It became popular belief that Tyrion never existed, that it was just the name given to a phantom pirate that didn't get caught. Tyrion used this to his advantage and began lying low during the clone wars. When Palpatine began his extermination, he feared he might be mistaken for a Jedi so he fled. He went to the Unknown regions and found that where the Aisharia had been was now settled space. He also learned that the Aisharia and their enemies had set each other back hundreds of years in terms of development, leaving them at about the same level as the rest of the galaxy. After Endor, Tyrion returned and made his way

to the Palvar Sector. He has begun resuming his trade at the fringes of the sector while evading the PDF.

Special Skills:

Flight: This skill is like running except it is used for flying at high speeds instead of running.

Energy Attack: This skill is used to form a ball of energy in one hand and then fling it. The skill is used for To Hit

rolls, while the Energy attribute is used for damage.

Special Abilities:

Immortality: Tyrion Nightstorm is partially immortal. He has an incredibly advanced immune system and a regenerative factor

that keeps him alive. He is immune to all forms of disease and poison. He will not die of old age. If he is maimed in some

way he may take a full action and regenerate the lost limb and all levels of wounding on him are removed. he may not use

this ability UNLESS he is maimed.

Magnetics: Tyrion can manipulate magnetic fields. This ability uses the base energy Attribute for necessary rolls. it can

be used to manipulate metal objects like Telekinesis or can bend them using the Energy Attribute as an effective strength

roll. He may also release waves of Electro-Magnetic energy that do Ionization damage equal to his energy attribute.

Story Factors:

Reputation: Tyrion and Tyroshi are two of the most infamous pirates in the galaxy. They have become so famous they are

thought of as legends used when an unknown pirate makes a strike.
