Description: Woan Barso was a human male who smuggled refugees out of Jedha City on the moon Jedha during the reign of the Galactic Empire. He transported the refugees using a dilapidated container tug to freighters waiting in orbit above the moon; however, he had so little faith in his starship's life support system that he wore an orange vac-suit at all times. Because of this, the Guardians of the Whills Baze Malbus and Chirrut Îmwe did not trust him to be able to help

them evacuate an orphanage.
In 0 BBY, the Alliance to Restore the Republic agents Jyn Erso and Cassian Andor passed Barso as he stood in the city shortly before the entire settlement was destroyed by the Empire's Death Star superweapon.

Years later, Barso became to a powerful pirate leader who would attend the summit held by Zeva Bliss.
