Description: Nesta Term was a self-proclaimed Lens of the Central Isopter, a death worshipping cult active during the reign of the Galactic Empire. Her obsession with oblivion brought her and her fellow cultists to dangerous places, such as Jedha City on the moon Jedha, where they were said to study the harmonies of discord. In 0 BBY, she and two other members of the cult stood together in one of the streets of Jedha City as the RA-7 protocol droid KMD-RA-71 and the Vobati forger Valwid Ined walked past. Term, as a part of her beliefs, wished for death. She was granted her wish when Jedha City was destroyed by the Galactic Empire's Death Star. She wore a brown and

yellow patterned mask and robe matching those worn by her fellow cult members.
