

## Characters D20 / Lt. Belman (Imperial

Lt. Belman

Born and raised on the Imperial world of Cardia, Lt. Belman was trained at the Imperial Stormtrooper facilities on Cardia. He passed at the top of his class, but was over shadowed by a fellow student who is now his commander. Belman was made Lt. and assigned to the Nebulon-B Escort Frigate, Render. From there, he is often one of two Stormtroopers assigned to guard Captain Lasard on her "outings." This is a job he does not relish, nor desire, and hopes that one day, an assassin will kill the captain so that he might have a normal job, or be excited.
