Polvin Travix

Polvin Travix is a member of the dark council of Black Phoenix. Many rumors ciruclate about what Black Phoenix is. Those
who have encoutnered memebrs of it's "core" are sure it's a group of dark jedi. Others say it's a secrative crime
syndicate. still tohers say it's collection of bnakers and buisnessmen who consprie to rule everything. In fact all of
these things are true and yet none of them come close. The real origins of Black Phoenix aren't knwon by anyone, even it's
leaders. Most beleive it was an roder oy loyalists to an old Dark Side Warlord. Wahtever they were then, what they are now
is quite different. The ruling heart of BP is a cadre of Dark Jedi, the most pwoerful of whom sit on the high council. The
organziuaton encompases bankers, scientists,buisnessmen, and criminals as well though. They attempt to, as fully as possible,
control the flow of history throguh every means possible. They do this because they think only the most powerful and
msot enlightened should rule. It is rumoured that there is much political in-fighting among black phoenx as memebrs crawl
over eachother to gain favor.

The Old Republic never even confirmed their suspicions of the group's existance, only found evidence sugegsting it. When
Polvin was turned he proved himself capable of handling the powoers of not only the Dark Side, but of the Great Sith
Magics. The Sith Magic grated him greta power, including extended life. He is now a member of the Order's High Council. He
has sent two of the best Dark Warriors the Order has to find and bring back the rogue Chagre, Gabriel certamen. Polvin is
not a warrior but can ahndle himself easily in a fight. Rather than going lgihtsaber to lgihtsaber with another jedi, he
will try to merely kill them at a distance with the force.
