Weapons D6 / Bokken Saber

Name:. Bokken Saber
Model: Wooden sword
Type: Melee Weapon
Scale: Character
Skill: Lightsaber
Cost: Unavailable for sale
Availability: 2, F
Difficulty: Easy
Damage: Str

Description: Bokken sabers, also known as lightsaber training staffs and Jedi training sabers, were wooden swords used for lightsaber combat training. Sabine Wren and Ezra Bridger used training sabers made by Kanan Jarrus and Garazeb Orrelios to help the Mandalorian learn how to wield the Darksaber.
Sabine would later use a Bokken when sparring against Huyang and Ahsoka Tano, after agreeing to resume training as Tano's padawan.
