GAME DESIGN NOTES:

While converting some ships from Star Wars D20 to D6, the proton torpedoes always converted their Damage to 10D instead of the usual 9D. To rectify this, I decided to make a Heavy version of the Proton Torpedo Launcher, and there already is a Heavy version of Concussion Missiles, so it made sense.

Availability Chart:

1 - Readily available throughout the galaxy.
2 - Available only in large cities or spaceports.
