The Force D6 / Mechu-Deru

Mechu-Deru **Master Power (Dark Side Power)**

Mechu-deru is an arcane Sith technique related to Sith Alchemy. It is based on the usage of the dark side of the Force to affect mechanized objects, rather than biological beings. The ability is used to alter mechanical properties, such as droid programming or the manipulative control of mechanical devices. Darth Maul used Mechu-deru to create his Dark Eye probe droids, and to change the protocol droid C-3PX into an assassin droid. Irek Ismaren used Mechu-deru to control the systems aboard the Eye of Palpatine. Alter Difficulty: Heroic (modified by user's knowledge of mechanical device and/or system, as well as changes attempted to be made) *Requires: Sith Alchemy*
