Description: A hoversled, also known as a gravsled,was a type of repulsorlift transportation. During the High Republic Era, Myarga Anjiliac Atirue the Benevolent, a Hutt who was a member of the Hutt Cartel, used a hoversled for transportation and battle.Twenty-four years after the formation of the New Republic, Senator Ransolm Casterfo unwittingly ruined Princess Leia Organa's sting operation of Rinnrivin Di's cartel when he attempted to "rescue" her in a hoversled.
