after a human would have fallen over dead. Damage Chart is as follows

Martial Arts Moves:

Flip

Description: The character can throw a target who has grappled him/her from behind.

Difficulty: Moderate

Effect: A successful skill check indicates that the target is hurled to the ground (provided the attack is not parried or dodged). The target suffers 3D damage. This technique may be used as a reaction skill.

Foot Sweep

Description: The character can trip an opponent.

Difficulty: Moderate

Effect: A successful attempt indicates the target is tripped, falling to the ground. The character must remain prone for the remainder of the round.

Instant Knockdown

Description: The character knows how to maximize impact, knocking the target to the floor.

Difficulty: Moderate

Effect: If the caracter's attack is successful (and is not parried or dodged) and if the skill roll meets the required difficulty number, the target is knocked to the ground. the fallen character must either wait one round to stand or suffer

multiple action penalties.

Instant Stand

Description: The character is trained to negate the effects of a fall and return to a standing, combat-ready position.

Difficulty: Moderate

Effect: If a character is tripped or knocked down, he/she may use this technique to return to a standing position.

Successful use of this technique indicates that the character can stand without suffering a multiple-action penalty.

Reversal

Description: The character is trained to turn the tables on an opponent who is attempting to grapple.

Difficulty: Opposed Strength or Brawling: martial arts roll (whichever is higher)

Effect: The character can employ this technique only when he/she is held. If he/she breaks the opponent's grip, he/she may

in turn hold the target immobile or employ another technique. This technique may be used as a reaction skill.

Spinning Kick

Description: The character is trained to perform a powerful kick.

Difficulty: Moderate

Effect: The character can add +1D to her damage roll if his/her skill roll exceeds the difficulty number.

Failure to

beat the difficulty number indicates the character is off-balance and his/her opponent may make an additional attack this

round with no multiple action penalty.

Weapon-block

Description: The character is trained to parry melee attacks, even when he/she does not possess a melee weapon.

Difficulty: Opposed martial arts versus melee combat roll

Effect: If the character makes the required difficulty roll, he/she successfully blocks a melee attack

Sword Techniques:

Name: Un-Even Fighting

Description: One opponent moves to a higher ground, and defends from it, while another remains lower (i.e. dueling on stairs.)

Difficulty: A Moderate check of Dexterity is made. Failing it, you fall to the ground, after losing balance (for two rounds, all skills are -2 and no bonus awarded for those two rounds.) Must be made by both combatants.

Effect: Whichever combatant is on the higher ground receives a +1D to strike rolls and the lower combatant will receive a +1D to parry

Name: Feint/Attack

Description: One opponent "fakes" an attack to throw off the other's balance. He returns his saber to "home" position.

Difficulty: A Moderate Melee Combat roll is needed. Modified by opponent's Perception roll.

Effect: This maneuver is considered a multiple action, because the attacker will make two strikes: The fake one, and the real one. If the attempt was successful (The lightsaber roll was higher than the opponent's roll), the attacker gets to add that difference to his strike, because the defender was knocked off balance, and unable to properly defend himself (-2D: 1D is because of multiple actions: Defending Twice). However, if it is the reverse (the defender's roll was higher) the defender saw the feint, knew not to defend it, and will be able to see the real strike, and defend it with no modifiers.

Name: Disarm

Description: This is to force the opponent to release his/her melee weapon.

Difficulty: This is a Very Difficult maneuver to execute, because there is a +5 bonus to the defender.

Effect: Knocks the weapon from the opponent's hand.

Design Notes: Based loosely off the character from 'Samurai Showdown'
