Description: Spence Leffbruk was a human male hyperspace prospector active during the High Republic Era. After the death of his wife, Spence raised their son, Dass, on his starship, the Silverstreak. Around 382 BBY, Spence and Dass were stranded on the ravaged planet Gloam by fellow prospector Radicaz Dobbs after they had teamed up to blaze a hyperspace route to a paradise planet, during which the Leffbruks' ship was damaged.
