Planets D6 / Sarjenn 3

Name: Sarjenn 3
System: Sarjenn system
Planet: Unidentified astronomical object
Point(s) of interest: Sarjenn 3 port

Description: Sarjenn 3 was a moon in the Sarjenn system, orbiting an astronomical object. Sometime after the Battle of Yavin, Darth Vader embarked on a mission with Sulaco in order to convert her from a rebel spy to a double agent for the Galactic Empire.

Places of Interest

Sarjenn 3 port

The Sarjenn 3 port was the sole port of the moon Sarjenn 3. At some point, the port was converted into a rebel stronghold. Sometime after the Battle of Yavin, Darth Vader brought Sulaco to her family's residence at the port in order to convert her from a rebel spy to a double agent for the Galactic Empire. During the mission, Vader destroyed several parts of the port-city, including some outer walls and a large structure in the center of the port.
