The Force D6 / Doppelganger

Doppelganger **Master Power**

Doppelganger was a Force ability utilized by masters of the Force during the Old Republic era. It consisted of using the Force to extend their mind out of their physical forms and take a semi-physical form in another location. The result was a doppleganger image of the user. The user could perceive all of the senses of their doppelganger, and it was a perfect illusion to those viewing it. A doppelganger would fool other beings as well as registering on the video and audio sensors used by droids. If the Force user was injured or ceased using the power, the doppelganger would fade away. Of note, Count Dooku and Luke Skywalker were the only recorded Jedi to use this ability. Control/Alter Difficulty: Heroic (modified by distance)
