Description: Alek was born on the planet Quelii in the Outer Rim Territories. When the Mandalorians attacked his homeworld, he escaped the battle and fled to the Galactic Republic, whose immigration records assigned the name of his home village as his surname. He was trained in the ways of the Force by the Jedi Order and was nicknamed Squint by his fellow Jedi, before eventually becoming a Jedi Knight. During the Mandalorian Wars, Alek, Revan—his closest friend and fellow Jedi Knight—and their faction of Jedi disobeyed the Jedi Council and aided the Republic's war effort through scouting missions in the Outer Rim.

He befriended the Jedi Padawan Zayne Carrick and, after taking the name "Malak" in order to avoid an arrest warrant issued by the Council, assisted Carrick in defeating the secretive Jedi Covenant. As the war progressed, Malak became a military general and gained a reputation as a headstrong warrior who recklessly charged into danger.

Personality and traits

Appearance and early life

Darth Malak was fair-skinned and stood two meters in height. His eyes and hair were initially blue and black respectively. During his later life, Malak was bald and had gray eyes when he was a Sith Lord. Malak's head was adorned with blue tattoos, which he received while helping Zayne Carrick clear his name. He spoke and understood Galactic Basic Standard and the Sith language.

Before taking the name "Malak," Alek was an optimistic young Jedi with a distinctive sense of justice, which he shared with his friend and "Master," Revan. Because of Alek's belief of the Jedi Order's passiveness, he joined Revan's campaign against the Mandalorians, feeling that the Jedi Council would not be able to end the conflict. If necessary to save the light, he did not rule out the option of entering the darkness to do so. Believing that the Council had failed to uphold the Jedi Order's vow as the guardians of peace and justice, Alek not only joined Revan but aided him in the recruitment of other Jedi, utilizing his influence and charisma to attract many Jedi to the

Revanchists. Not only was Alek proud to stand at Revan's side to defend the Republic, but he also sought to defend its ideals, including freedom and justice. Alek believed that in doing so, he was fulfilling what the Jedi Council failed to do: defend the Republic citizens that the Jedi had sworn to protect.

When Alek assisted the fugitive Padawan Zayne Carrick in exposing the Jedi Covenant, he changed his name to Malak. He later explained to the Arkanian female Jarael and the Snivvian Marn Hierogryph that "Malak" was more than just a name to him—it was what he felt he had been born to be. After the Mandalorians had destroyed his life on Quelii, Malak had answered to names that others gave him and were not his own because he had not cared; Malak thought that because his home was gone, it did not matter who he was. After becoming Malak, however, he began to believe that his identity did indeed matter because there was nobody left who knew him as Alek. He vowed that people would remember his "Malak" identity. After experiencing a vision of the Mandalorians' genocide of the Cathar people, Malak came to believe that all Mandalorians were incapable of friendship, including Jarael and Carrick's companion Rohlan Dyre, who was in actuality Demagol. When the man whom Malak believed to be Demagol escaped after the show trial on Coruscant, the Jedi headed the search for the scientist. He ordered the forces under his command to detain and search every speeder for Demagol, regardless of citizens' rights and the various Coruscanti jurisdictions.

Relationship with Jarael
When Alek met Jarael at Flashpoint Station, he recognized that she was not a Jedi, and pleaded with Demagol to be examined in her place; he had hoped to spare Jarael the pain of being tortured. Shortly after Carrick and Dyre successfully rescued the Jedi on the station, Alek asked Jarael to call him by his real name rather than his nickname, Squint, the next time they met. Alek further demonstrated his desire to protect Jarael during Arkoh Adasca's auction for the exogorth superweapons. When Adasca struck Jarael for talking through her wrist comlink and demeaned her, Alek ignited his lightsaber in response and threatened Adasca with it, stating that Jarael was special and warning Adasca not to hurt her again.

After they ended Adasca's scheme and returned to Taris, Alek attempted to enter into a romantic relationship with Jarael. However, she was not ready, due to recent experiences that had left her vulnerable. He asked her to question whether it was the timing that was the problem or if it was just him that she did not want to become involved with. After he changed his name to "Malak" and helped to clear Carrick's name, he was reunited with Jarael on Wor Tandell and tried to convince her to not only join the Revanchists, but to also become romantically involved with him. Following Malak's brawl with Rohlan Dyre, who was in actuality Demagol, Carrick deceived Malak into believing that he and Jarael were romantically involved. When Malak met with Carrick before the trial of Demagol, the former Padawan told Malak that he and Jarael had ended their relationship. Malak had figured the supposed relationship would end, believing that Jarael would end up being involved with someone older and more established.

Powers and abilities
During his time as a Jedi, Malak was trained as a Jedi Guardian, focusing on lightsaber combat and physical aspects of the Force. Eventually, Darth Malak came to be counted among the skilled swordsmen of his time. In combat, he fought in a one-handed, aggressive style.During his torture sessions at the hands of Demagol on Flashpoint Station, Alek used the Force to block the pain that Demagol caused him. As a Jedi, Malak used the Force as a means of protection and healing.

Equipment
As a Jedi Knight, Malak wore a set of red Jedi robes and used a lightsaber containing a blue

crystal.
