Special Abilities:

Ultraviolet and Infrared Vision: With their four eyes, Dyplotids were capable of seeing in the ultraviolet and Infrared spectrum. This reduces all penalties for low light and dark by 2D.

Move: 10/12

Description: Dyplotids were a sentient species that existed in the galaxy with four eyes that allowed them to see in ultraviolet and infrared spectrum. Members of the species were seen at the Lodge on Vandor and the First Light. Craykan was a member of this species who was one of the three Tech Masters who ruled the planet Trionak.
