Description: An individual was a male Toong vendor at the trading outpost in a desert planet, during the High Republic Era. When Inaya's ship crashed-landed on the planet Rex Strata, she and Nash Durango went to the outpost to buy parts for their ship. Inaya spoke to the Toong vendor, who was unwilling to sell parts to princesses "playing pretend." PD-4 advised them to find another merchant but Durango speaks up for Inaya, insisting that she is a mechanic and a ship builder. The Toong merchant asked her to prove herself by repairing a starship component. Inaya showed them the list of starship components and the Toong vendor willingly complied.
