Creatures D6 / Darkhounds

Darkhounds

Darkhounds are further servants to the long forgotten dark masters. They run free of trollocs and myrddraal like grey men and draghkar tend to. They are also used not in battle but to hunt. They search out and ruthlessly kill their targets with efficency not stopping once if one falls. A darkhound falling is very hard as it regenerates itself even from death. It can be blown apart with a grenade and goblets of it's blakc flesh will reconverge to reform it so it may begin it's attacks anew. The galaxy has not seen darkhounds scince a time shortly after the great sith war but it is legend and rumor that they still roam free.
