Description: Nict was a Human admiral serving the Galactic Alliance in 130 ABY. During the Battle of Caamas, the admiral's Pride of Corellia and other ships of the fleet were unable to escape from Caamas and into hyperspace due to the Fel Empire sabotaging the lanes. The old friend of Admiral Gar Stazi initially protested his risky suggestion of using the routes known to spacers, but Stazi was adamant and said he had been saving some Corellian brandy that he would share with Nict when the fleet was safe. After Stazi and Nict spoke, the Empire destroyed the Pride of Corellia, killing Nict.
