Description: A mobil-haus was a type of spacious shelter that could both comfortably house a large number of individuals as well a be quickly packed up and moved. A mobil-haus consisted of four pop out bedroom units on wheels connected to a central hub. The central hub included space for a common area and kitchen. A fifth fixed protrusion from the central hub include a cockpit and communication setup. The shelters were utilized to on the agricultural farm world Mina-Rau by mechanics.
In 4 BBY, Bix Caleen, Cassian Andor, B2EMO, Wilmon Paak, Brasso, and Talia shared a mobil-haus while they lived and worked on Mina-Rau.
