Description: Gerdis was a male human who was apart of the Maya Pei Brigade during the Imperial Era. In 4 BBY, Gerdis, along with several other members of the brigade, were stranded on the moon Yavin 4. Once the human Cassian Andor arrived on the moon in a TIE Avenger for a mission related to the Axis network, tensions in the brigade arose. After a blaster shootout, Gerdis and his

rival Bardi attempted to negotiate who would depart playing a game of Five Hands with Roski rules. During their match, the two heard a loud rumbling that sounded like thunder. A moment later, a Yavinian doodar barged in and engulfed the two in its mouth, devouring them.
