

Creatures D6 / Ibaeps

Ibaeps

Ibaeps were extremely dangerous in the early days of the Republic. They moved in packs of up to a hundred and were so bold as to even attack military outposts.

The Ibaep's were especially dangerous because of their amazing regenerative abilities. Their cells reproduce and split off at an alarming rate. Thus any non-fatal damage will repair itself within a minute.

Also melee weapons and lightsabers were quickly discovered to be ineffective. Should anything be severed from an Ibaep, even the head, the severed part and the main body will totally grow back within 5 to 10 seconds leaving two Ibaep's in it's place.

There is a record of a pack of 80 Ibaep's attacking an outpost that two Jedi were stationed at. By the time the battle was finally over, more than 500 Ibaep carcasses were scattered over the ground. Only parts of the Jedi and military personnel's corpses were found.
